The "KING OF FLOWERS"

The origin of the peony is lost in antiquity. Poets have sung of its fragrant beauty since the dawn of history. It has come down to us through the ages as a symbol of perfection each year adding to its beauty. Peonies are the easiest satisfied of all perennials as to soil and culture. They thrive practically anywhere that drainage is good. Plant peonies with top eye about 1" below ground level—don't set too deep. Look over the fine varieties across the top of pages 2 and 3.

They bloom in the Fall

These Beauties Bloom TWICE A YEAR in Your Garden

The only difference between these iris and the others is that they bloom not once a year, but twice. They come into bloom first in the late spring and again in the fall. The fall-blooming varieties give you a double blooming season, but still are very economical to plant.

FALL IRIS PRICES: 69c each; 3 for 1.69, postpaid.

B1156—Black Magic. Pictured at far left. It is a rich, velvety black purple. The picture doesn't do it justice.
B1190—Southland. Pictured second from left. A deep, golden-yellow, and winner of the American Iris Society's Award of Merit.
B1152—Autumn King. A beautiful, and very popular, bi-color iris with large blooms of blue and purple.
B1153—Autumn Queen. This is snow white and often blooms seven months of the year! One of the best fall iris.

Fresh, Vigorous Stock • Newest, Best Varieties, ALL GUARANTEED

We've been pleasing customers for over 90 YEARS

The only comparable soil to our bottom lands along the mighty Missouri river here at Yankton is said to be the Valley of the Nile. Rich and productive, it raises for you the strongest, hardiest stock available anywhere. We are only about 200 miles from the geographic center of the United States. This makes us ideally located to serve the entire country by mail.

No other method of buying nursery stock offers you the advantages of buying from Gurney's by mail. Here you get everything, vigorous stock from rich bottom land soil. Hardy stock from our vigorous climate. The latest and best introductions are gathered for you from all over the world and a huge selection to choose from. We raise most all of our nursery stock right here at Yankton. You pay no agent's commission or middleman's profit. You buy direct and you save. It's easy to shop by mail from Gurney's—right in the comfort of your living room.

Yankton is the home of the gigantic Gavins Point Dam which forms the huge Lewis & Clark Reservoir, a lake over 40 miles long.

FREE GIFT with every order

It always has and always will take a lot of old fashioned courtesy to maintain a friendly business. That is why we always include a free gift with every order we receive no matter how small it might be. This is our way of saying "thank you" for your fine order. We can't tell you what that gift is going to be, but we know you will enjoy it.

Dawn Zimmerman, 3 year old daughter of the Andrew Zimmerman of Kalamazoo, Michigan enjoyed helping raise these fine gourds from Gurney's seed. Why don't you try this interesting hobby next year?

HOW and WHEN WE SHIP

We will be able to ship practically all of the bulbs, strawberries, evergreens and perennials listed in this catalog from about September 10th until the end of fall planting season.

Deciduous plants such as shrubs, roses, hedge plants, small fruits and trees will be shipped when they become dormant which is usually in October and is the proper planting time for you.

Place your order as soon as possible after you have received this catalog. We send your stock promptly at the earliest, safe planting date for your locality.

Here is little Miss Loretta Jean Weiss, age 8 1/2 months with a Jack-O-Lantern made from a pumpkin raised from Gurney's seed. Loretta is the daughter of Mr. & Mrs. Fred Weiss of Pine River, Minn. Thought you'd enjoy this snapshot.

Gurney's Nursery Stock Is GUARANTEED

We guarantee all Gurney nursery stock to be state inspected, free from disease, true to name, and first class in every way.

Examine the nursery stock carefully when you receive it. If you are not pleased with it in every way, return it promptly at our expense and we will replace it at once, or refund your money in full, whichever you prefer.

After you have planted it if it fails to grow owing to weather conditions or other factors over which we have no control, we will adjust for those losses by issuing a credit for one half (50%) of the original purchase price, providing your loss is reported to us not later than August 1, following planting.

Buy Direct—Save Agent's Commission!

For years, we thought that good hybrid seed corn was costing you farmers too much money. There was no way to lower costs on the production end, so we investigated distribution methods. Obviously selling through agents caused the high price. There was only one answer if we wanted to lower prices and not cut quality—eliminate agents. Their commission had to be charged right back to you the planter. We did this—we started selling direct—and as a result you can Now buy Gurney's Golden Hybrid at a tremendous saving! About FALL PLANTED ROSES

Have Better Roses by Planting NOW!

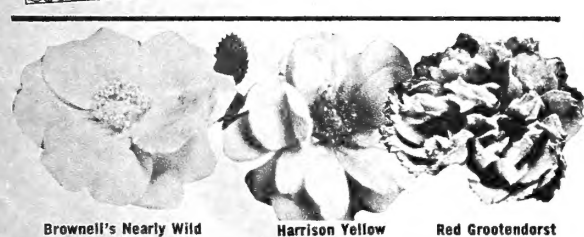

Fall planted roses give you a real head-start on spring planted ones—they can take advantage of melting snow and early spring rains to make good, early root growth before hot weather! They get off with a real head start.
 Plant this fall just like you would in the spring but be sure and mound 8 to 10 inches of moist soil up over each rose almost to the tip of our pre-pruned stock. Leave it on until growth starts next spring. Then, in the spring, remove mound gently as buds swell and prune top back to about 6 inches.

In the far north area north of Yankton many people prefer to "heel" in—that is, bury the entire plants, tops and all under moist dirt. They store perfectly this way and can be planted just as soon as frost leaves in the spring. This is not necessary in well protected locations.

WE SHIP ROSES, generally, from late October through November after they become dormant for perfect transplanting. Late fall is the ideal time to plant just before the ground freezes. Even if there is some frost in the ground, there is no harm to the plant as it is dormant and will not make new top growth until spring.

Gurney's Rose Guarantee

We guarantee all Gurney's roses to be large, two-year-old, field-grown plants, healthy and free of disease. They are state and government inspected, carefully handled, packed and shipped. If they do not satisfy you 100% on arrival, return promptly at our expense and we will replace or refund your money in full, whichever you prefer.

Absolutely HARDEST SHRUB ROSES

These are all hardy, beautiful, and easy to raise. No winter protection necessary. If you have had trouble raising roses, try these bush roses.

Gurney's GIANT CROCUS

Often Bloom Through Snow

Nothing gives more early spring color or is a more welcome sight, than the crocus. They come up and bloom through the melting snowdrifts and are always such a welcome sight after the long winter months. They are first to bloom each spring.

Yes, you can grow them among the shrubbery, or right out in the open lawn. Good in corners or rock gardens, too. Very easy to grow. These are the giant-flowering kind, and Holland grown.

SPRING-FLOWERING BULBS direct from Holland-plant them this Fall

SCILLA SIBIRICA

B6822—(Siberian Squill). Give your rock garden or other informal plantings an early start with these spring flowering bulbs. Has dainty bright blue flowers that are ideal for the border or rock garden. The beautiful bell-like flowers are produced on stems 3 to 4 inches high. Plant 3 inches deep. 12 for 69c; 25 for 1.19; 50 for 2.19; 100 for 3.98, postpaid.

B7803X—Spring Bulb Mixture. 12 each of all 4 spring bulbs pictured here for only 3.29, postpaid.

GRAPE HYACINTH

B6807—Muscari. Tiny spikes of vivid blue flowers that look very much like miniature blue grapes. Plant them out in front where they can be seen. Ideal for the rock garden, low borders or edging beds. Use among shrubs and perennials. Will do well almost anywhere. Grape Hyacinth can also be used for forcing indoors. Grows 6 inches tall. 12 for 55c; 25 for 89c; 50 for 1.49; 100 for 2.49, postpaid.

CHECKERED LILY

B6803—(Fritillaria). These are fine for outdoor use or can be forced indoors. The hanging, bell-like flowers with their curiously checkered shades vary from reddish brown to purple. For indoor culture set 6 to 20 bulbs in a pan of good loam. Leave outside (water regularly) till frost sets in, then bring into the window of a cool room. 6 for 79c; 12 for 1.49; 25 for 2.19; 100 for 5.98, ppd.

GLORY OF THE SNOW

B6806—(Chionodoxa). Bloom early (with the crocus) and produce many flowers to a stem. The flowers are sky-blue with center of white. Plant 3 inches deep and 4 inches apart in a fairly sunny location. Glory of the Snow is very fine for a mass planting. One of the most popular of all the minor bulbs. 12 for 75c; 24 for 1.19; 100 for 3.98, postpaid.

5-in-1 Apple Tree

Five Varieties on 1 Tree!

Not an ordinary 5-in-1 apple tree, but one with 5 hardy northern varieties. Each tree will produce Red Duchess, Yellow Transparent, Wealthy, Haralson and Prairie Spy. Good from Yankton north, better than ordinary from Yankton south. Now, even the smallest yard can grow 5 kinds of apples. All are 5 to 6 foot trees 3 years old. A1115—5-in-1 apple, 3.95 each; 2 for 7.50, postpaid. Comes Pruned For Planting

HARALSON

YELLOW TRANSPARENT

WEALTHY

All Gurney apples including the crab apples, are grown here at Yankton on hardy Siberian Root stock. Nothing hardier or better for north or south. When we say a certain variety of apple is hardy—it IS hardy.

When fall planting, simply mound up the dirt around the base of the tree. Far north planters should dig a trench, lay the trees on their side and "heel" or bury roots, tops and all with a mound of moist soil. They will store perfectly this way for an early spring planting.

HARALSON

Finest Hardy Winter Apple

A1040—Add up the good qualities of all the other apples and say, "This is Haralson." Produces loads of big, red juicy fruit that keeps till the following summer. Bears annually on a strong branched tree. Pick fruit in three years. See prices at right.

YELLOW TRANSPARENT

The Golden Summer Apple

A1110—One of the earliest, ripening right after harvest. An excellent eating apple and "what apple pies you can make with it!" Bears immense crops of yellow, thin-skinned apples just "tart" enough for the best sauce and pies. See prices at right.

WEALTHY

Best Known Fall Apple

A1105—This is too well known to need description. Has pale yellow skin almost hidden by brilliant red stripes and white juicy flesh. Fine for pies. Wealthy is hardy and a leader of orchard apples for the north. If picked early and properly stored will keep until Christmas.

NORTHWESTERN GREENING

Biggest Apples of All

A1065 — (not pictured). Very attractive winter apple, with smooth, waxy, clear pale yellow skin with a slight greenish tinge. Flesh is crisp and mild. One of the largest apples you can grow with apples measuring sometimes as large as 5" or more across. Known for its good keeping ability.

Finest Plums our Specialty. Plums have been a Gurney specialty for over 90 years. We offer you a complete line of plums each one the best of its kind. All are budded on hardy plum seedlings—not on peach, which is not hardy. Gurney plums are extra-hardy. Here are 7 of the finest varieties money can buy.

A1637—WANETA. The Largest Red Plum. You get big, profitable crops from Waneta. The fruit is very large and a gorgeous reddish-purple color. The flesh is tender, sweet, and juicy—of the finest quality. A sure bearer every year.

A1634—TECUMSEH. Extra Hardy and Early. One of Dr. Hansen's best, and probably the best-eating plum in our whole list. The fruit is a bright red with bluish bloom. The flesh is yellow, firm, juicy and sweet, and has a delightfully appetizing flavor.

A1635—UNDERWOOD. For Northern Planters. Right type for the Northern States and Canada. Large, red, sweet and juicy fruit of very high quality for eating fresh.

A1631—SAPA. Rich Sweet and Black. Black outside and clear to the pit. It has a sweet flavor you can't forget and bears immense quantities annually. Ripe the latter part of July. Bears the first year after planting. Very hardy.

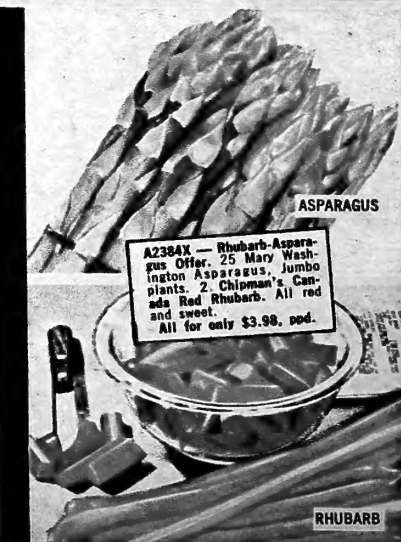

A1620—KAGA. The Apricot Flavored Plum. A deliciously flavored plum with an appetizing fragrance. A cross between a native wild plum and the very fragrant Chinese Apricot. Will produce plenty of plums for canning, preserves, and delicious eating right from the tree.

A1612—IDAHO PRUNE. Best Prune for the North. Large, delicious prunes with firm flesh of fine quality. Excellent for canning or eating fresh. Cooks up into fine wine-red sauce. Idaho Prune was introduced by us and is the only prune we feel worthy of listing.

A1632—SUPERIOR. Largest Fruit of All. The largest, and one of the best quality hybrid plums. Big, yellowish fruit which turns pink and then a deep, rich red. Peels like peaches and the firm, juicy flesh is of high dessert quality. Hardy in southern S. Dak., Iowa and like climates.

GAIN by Fall Planting ALL FRUITS!

All the fruit in our fall catalog can be successfully fall planted. You get a big head start when you fall plant, too. Be sure to leave a mound of dirt around the base of the plants or trees as this helps prevent damage from possible soil heaving. (If you live where it gets extremely cold we advise you "heel in" your fruits. Do this by digging a shallow trench and laying the plants on their side and covering over roots and tops with at least 8 inches of moist dirt. Stock stored in this manner will absolutely keep in 100% perfect condition for planting at the earliest possible date next spring.)

Fruit trees will be shipped when they have "ripened up" which is usually mid-October and November which is the proper time to plant in the fall.

We'll see to it trees are sent as soon as the ripening period is complete. It does not hurt to plant with a little frost in the ground.

HOW TO FALL PLANT FRUIT TREES

Fruit trees are fall planted same as in the spring except a mound of dirt should be left around the base of the tree. (If you live in the far north climates we advise you "heel" the trees in by digging a shallow trench and laying the trees on their sides. Cover roots and tops over with at least 8 inches of moist dirt. Will store perfectly until you are ready to plant early next spring.)

IMPORTANT

All fruit trees including apples, plums, cherries, apricots, pears, peaches and flowering crabs will come to you ready-pruned, for best planting results.

We send all fruit trees at proper fall planting time—from mid-October on, after they become dormant. All will be in absolutely first-class condition.

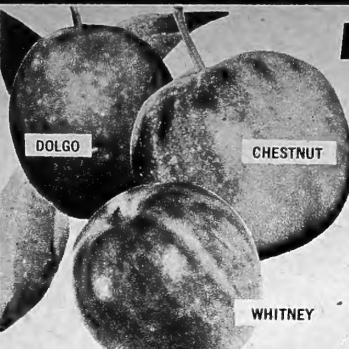

From Gurney's So Beautiful and Useful

Here are 3 of the most beautiful of all flowering crabs. When in blossom they are truly a sight to behold.

Gurney's RHUBARB and ASPARAGUS

Choice ASPARAGUS—Tender and Succulent

A3003—Mary Washington. It's Rust Resistant. Practically immune to rust which often kills other varieties. Sends up crisp, tender stalks for a long cutting period. Set asparagus plants 1½ foot apart. One of the best vegetables for freezing. 2-Yr. Jumbo Plants. 12 for 1.75; 25 for 2.95; 50 for 4.95, postpaid.

A3019—New "500". Tender and Sweet. A large, fast-growing variety that can be used the first year after planting. Sweeter, more tender, and much more prolific than other varieties. This one you will enjoy. 2-Yr. Jumbo plants. 12 for 1.89; 25 for 3.45; 50 for 5.98, postpaid.

Sweet, Rich RHUBARB for Pies and Sauce

A3056—Famous Chipman's Canada Red. Stalks are large, red from bottom to top inside and out. Cooking does not take its rich color. Sweeter so takes less sugar. Productive and almost seedless. Large No. 1 roots. 98c each; 3 for 2.69, postpaid.

A3062—Gurney's Goliath. Giant Stalks but Tender. The best yielder of all. Its tremendous size will amaze you, yet stalks are tender, juicy and have a fine, rich flavor. Not an all red variety but large and practically seedless.

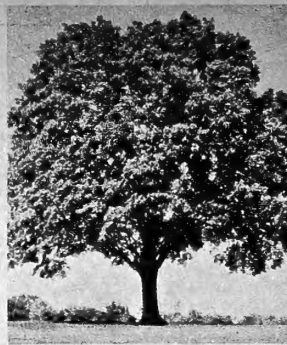

A3062—No. 1 roots 98c each; 3 for 2.69, postpaid.

SHADE TREES

Fall Plant for an Early Start

Gurney's have been headquarters for tree planters for over 90 years. Fall plant all shade trees in the regular manner but mound up around the base of the tree about 8 inches with moist dirt. We pre-prune the trees before shipment so they are all ready to plant on arrival.

When We Ship: All shade trees will be sent from mid-October into November. This is when they are fully ripened and is the proper time for fall planting in all areas. We raise our trees right here at Yankton to assure you of hardy northern-grown stock.

HARDY Evergreens From GURNEY'S

HOW WE SHIP EVERGREENS

B&B Means Balled & Burlapped

All evergreens listed as "B&B" are well shaped specimen trees dug with their roots still in a solid ball of rich earth and then wrapped in burlap, just as they have been growing in the nursery. This is the best way to buy evergreens, but they must be shipped express or by truck, not prepaid.

R.W. MEANS ROOT-WRAPPED

All evergreens listed "R.W." are freshly dug specimen trees. The roots are "puddled" in mud as soon as dug and each tree is individually wrapped in wet moss. These trees are all sent to you postpaid. The easier method of digging R.W. trees means a saving to you as you will see by our special R.W. prices. Water all evergreens thoroughly after planting.

Doorway EVERGREEN

Special

A Complete Doorway Planting

Provide a beautiful setting for your front entrance with this collection of hardy evergreens. Use them anywhere evergreens are needed. You get 2 uprights and 2 low growers. All R.W. trees.

COLORADO SPRUCE

The Ornamental Christmas Tree

IN16—This specimen type evergreen has long been one of the favorites. Don't plant those close to the foundation. They need room. The needles are of a clear green color. Makes beautiful plants for lawns or windbreak, and provides a pleasant change of color. 18 to 24 inch size R.W. 3.98 each; 2 for 6.98, all postpaid.

BLACK HILLS SPRUCE

Has Perfect, Compact Form

IN6—The compact perfect shaped spruce that made the Indians call the Mountains of South Dakota "Paha Sapa," or Black Hills! It is this beautiful spruce that imprisons the sunlight and from a distance gives the hills a black shadow. Its new growth is silvery, extremely hardy. Also a perfect specimen tree.

SPECIMEN TREES FOR LAWNS

PFITZER JUNIPER

SAVINS JUNIPER

MANEY JUNIPER

LOW GROWING FOUNDATION EVERGREENS

Nothing is quite as unsightly as a home with a barren foundation. Absolutely no need for it either. We are offering three of the finest shrub-type low-growing junipers on the market. These evergreens will dress up your home 365 days out of the year not just in the summer. All are hardy and priced to save you money.

IN44—PFITZER JUNIPER. Has arching, spreading branches, feathery gray-green foliage. Hardy everywhere and does well in sun or partial shade. 6 to 8 ft. across at maturity. Can be kept to 4 ft. across by shearing. Goes well with the uprights for entrance or foundation planting. 15 to 18 in. R.W. 4.50 each; 2 for 8.50, postpaid.

IN12—SAVINS JUNIPER. This beautiful, fan-shaped dark green, evergreen shrub is exceptionally hardy. It is very attractive and extra drouth-resistant. One of the best for mass plantings in beds and is hard to beat along the foundation. More erect than Pfitzer. 15 to 18 in. R.W. 4.25 each; 2 for 7.95, postpaid.

IN18—MANEY JUNIPER. A beautiful, bushy, semi-erect type with a distinctive blue color. Will fill in nicely between upright and low-growing evergreens. Grows to about 3 feet and is very compact. Perfectly hardy and easy to grow. 12 to 18 in. R.W. 4.25 each; 2 for 7.95, postpaid.

Ornamental SHRUBS

Add Value and Beauty

At a very small cost, you can plant Gurney shrubs that will add lots of beauty too and actually increase the value of your home.

HOW TO PLANT. A good "rule of thumb" is to plant low shrubs 2½ ft. apart; medium growers 3 to 3½ ft. apart, and tall ones 4 ft. apart. Immediately following planting, be sure to prune all shrubs back to one-third their original height. This equalizes root loss. Put an 8 inch mound of moist dirt around the base of the shrubs to prevent ground heaving. Uncover carefully the following spring.

HYDRANGEA P. G. Massive 10" Flowers

A3848—Hardy shrub producing panicles of white flowers, as large as 10 inches across, changing to shades of pink in the fall. Excellent for foundation or shade plantings. Grows 3 to 5 ft. tall. 18 to 24 in. 1.25 each; 3 for 3.50; 5 for 5.50, postpaid.

BRIDAL WREATH Everybody's Favorite

A3915—Spirea Van Houttei. George Gurney says: "This is the best, hardy shrub that grows." Its pure white flowers are borne on long graceful branches. Height 4 to 6 feet.

HARDY Hedge Plants

Hedges are the cheapest kind of fence you can have—more beautiful and economical too.

Fall plant same as in the spring, but cut back to ¼ original height and mound up with moist soil around the base of each plant to a height of 6 or 8 inches. Uncover carefully next spring.

No paint or repairs needed in this kind of fence and you'll have real privacy and beauty, too.

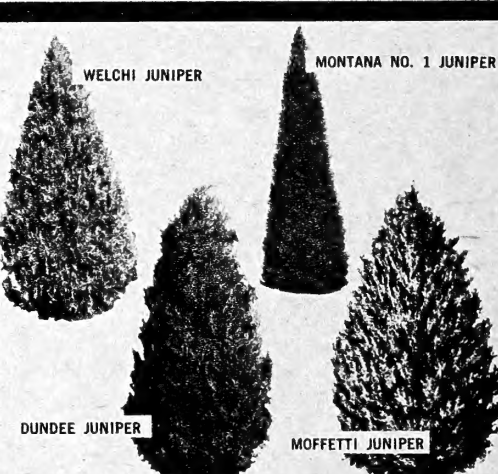

For Privacy and Beauty—Plant Gurney's Hedges

CHINESE ELM Fastest Grower of All

A3330—If you want a beautiful inexpensive hedge in a hurry, plant Chinese Elm. Can be kept trimmed to any height. Makes one of the tightest hedges possible. Very hardy and drouth-resistant. Set 12 inches apart.
